

8. (Amended) The method according to Claim 7, further comprising placing the bracket on a bracket jig before mounting the visor rim to one surface of the bracket.

REMARKS

This Amendment revises claims 3 and 4 to depend upon claim 1, instead of cancelled claim 2. In order that these claims should remain at the same scope that they were prior to this Amendment, the limitation of cancelled claim 2 has been incorporated into each. This Amendment also revises claim 8 to remove the grammatically incorrect word "of" from the second line thereof.

It is believed that all § 112, second paragraph objections to claims 3, 4 and 8 have now been obviated. The previous objection to claim 7 as introducing a "new issue" has been overcome by not amending this claim in any way.

The Examiner should note that the clean copy of the claims submitted in *Appendix I* reflect the claims as revised by this Rule 116 Amendment.
